SATS with Smiles

Thursday 26th January 2023 | 15:45 – 16:30 | CLICK HERE TO BOOK

Suitable for class teachers, senior leaders, and assessment leads.

In this webinar, LbQ Education Consultant Jon Chambers shows you how to keep workload low with fun and low risk preparation but with high results. There's a special offer for Year 6 teachers that's going to make Spring Term a dream.

Purple Mash: Using Purple Mash across the Curriculum

Thursday 2nd February 2023 | 15:45 – 16:30 | CLICK HERE TO BOOK

Suitable for EYFS and Primary class teachers.

This webinar provides advice and information on how to use the tools, resources, and activities within Purple Mash to help deliver all subjects of the curriculum. The session will cover:

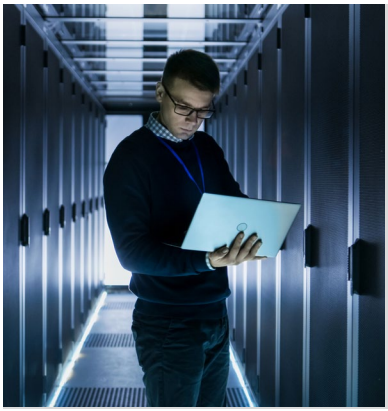
- Finding suitable, creative ways to engage children using digital resources for all subjects, including using curriculum maps to ensure coverage is matched to NC statements.
- Adapting resources within Purple Mash to suit the learner's ability making them accessible to all.
- A demonstration of Mini Mash for Early Years practitioners, showcasing how to integrate Early Learning goals within this digital platform.

Mid-year reviews - how to make them count

Thursday 9th February 2023 | 15:45 – 16:30 | CLICK HERE TO BOOK

Suitable for all staff within schools who have an appraisal or review.

Are you confident with your appraisal process? If you answer no, join us for this appraisal mid-year review session. This webinar will explore completing mid-year reviews and the review process as this is the time to reflect on your practices.



A focus on moving your school to the cloud

Wednesday 15th February 2023 | 10:00 – 11:00 | CLICK HERE TO BOOK

Suitable for school leaders and technicians.

Many schools began their 'journey to the cloud', in terms of the adoption of cloud-based education technologies, long before the pandemic. However, the impact of the pandemic and the associated interventions made by the DfE undoubtedly accelerated the adoption of a broad range of tools, technologies and practice. Whilst you may feel that your journey has started, many schools are still unsure what constitutes a destination – and whether in the ever-changing world of EdTech a school can ever really consider its final destination reached. Join us to discuss what Entrust Education Technologies believe to be the major stops on that journey – from quick wins to paradigm shifts, covering teaching, learning and the administration of school life.

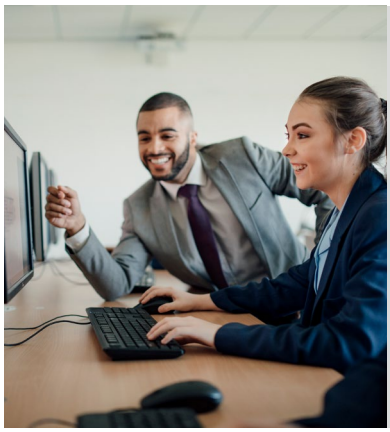
What do I need to consider about cyber security in an education setting?

Wednesday 15th February 2023 | 13:00 – 14:00 | CLICK HERE TO BOOK

Monday 6th March 2023 | 15:45 – 16:45 | CLICK HERE TO BOOK

Suitable for head teachers, senior leaders, governors, boards and any other roles involved in strategic decision making in schools as part of risk management and cyber security.

This session will provide an overview of the relationship between strategic and technical roles within school when building cyber resilient strategies and processes around risk management. Improve your knowledge and understanding of the impact a cyberattack or security breach could have on their establishment. Find out how to question your school's infrastructure to eliminate any cyber security risks and improve risk management processes and procedures.



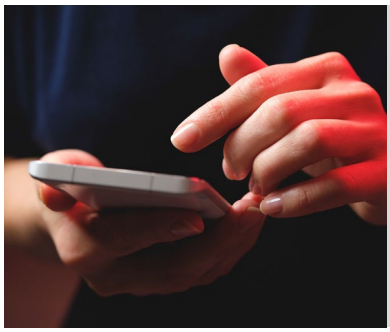
Governing Body Role in Cyber Security

Monday 27th February 2023 | 17:30 – 18:30 | CLICK HERE TO BOOK

Wednesday 1st March 2023 | 09:30 – 10:30 | CLICK HERE TO BOOK

Suitable for governing board and trust members.

Cyber security is the responsibility of the whole board because it is central to the school's ability to operate and function; a cyber security incident could lead to data and financial losses and reputational damage. Join us to learn about cyber security the impact it can have on your establishment. Equip yourself to engage in conversations with technical experts and senior leaders and find out the right questions to ask to understand the organisations cyber security approach. Delegates attending will understand their statutory and legal responsibilities around cyber security.



Getting creative with the Camera and Photos app

Thursday 2nd March 2023 | 15:45 – 16:30 | CLICK HERE TO BOOK

Suitable for all School practitioners who wish to make creative use of iPads.

There are so many underused features within the camera and photos app that you might not know about. Join us as we delve into the camera and photo app. You will need an iPad to try out the different features that we will be demonstrating. We will discuss classroom activities where these features could be used.

New to Microsoft

Thursday 9th March 2023 | 15:45- 16:45 | CLICK HERE TO BOOK

Suitable for senior leaders, class teachers, administrators, and office staff.

This session will explore some of the features that are available to you and dip in one or two of these and explore them further such as Microsoft Sway and OneDrive. We will also look at MS365 app which allows user to scan and sign documents online and to convert text to pdf or word documents. Join us to find out what MS365 has to offer.

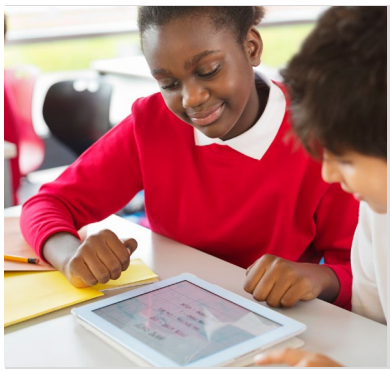
Writing in J2e (Mix, J2e5 and Office) Inc accessibility features

Thursday 16th March 2023 | 15:45- 16:30 | CLICK HERE TO BOOK

Suitable for primary teachers, literacy leads, and ICT leads.

Join us for this remote workshop as we look at Writing in J2e (Mix, J2e5 and Office) Inc accessibility features. The session will feature ideas for:

- Adding JIT write files into JIT mix and combining with other content to create an e-story book
- Using text to speech, speech to text, and word lists to support in JIT and j2e5
- Developing creative writing in j2e5; how text can be edited in different ways, through looking at a number of example activities
- Introduction to j2office writer



How to use data and AI to develop reading

Thursday 23rd March 2023 | 15:45- 16:30 | CLICK HERE TO BOOK

Suitable for school leaders and all class teachers in primary settings.

This session will explore:

- How pupils can develop their reading with Lexplore.
- Artificial Intelligence (AI) & Eye tracking - see how the learning model collects data from AI and eye tracking. The session will explore how the technology learns from the data collected and can be used to improve pupil's reading attainment.
