governor space

Improving schools with effective governance

We know that the time and commitment your governors can give to your school is limited, and your training and development budget probably even more so. Therefore we've developed GovernorSpace, a cost-effective, online governance tool helping your governors to identify where they need to improve and giving them the right knowledge and skills so that your school improves at the same time.

GovernorSpace at a glance

GovernorSpace is a web-based, independent learning programme that includes online training, access to useful resources, advice from governance experts, peer support and much more.

We offer three comprehensive development programmes for just one annual subscription of £110 + VAT:

* Induction for new governors
* Governance development programme
* Clerks development programme.

GovernorSpace can be used as part of a coordinated programme for your governing board or tailored to the unique needs of individual governors, no matter what their level of experience or the type of school or academy you may be. It's easy to use and navigate, and can be accessed anytime, anywhere.

What GovernorSpace offers you

✓ Updated, high quality training and information on demand, including information sheets, thought leadership pieces, occasional live events and other handy resources

✓ Three, cost-effective development programmes aimed at governors with all levels of experience

✓ Short, bitesize development modules of 15 to 20 minutes' duration

✓ The ability to book online coaching and mentoring sessions at a time that suits your governor's needs

✓ The opportunity for governors and governance professionals to learn at their own pace and navigate their own personalised training journey

✓ A structured approach to identifying and addressing governance development needs through our tailored skills audit

✓ Evidence of governor development for Ofsted

✓ A clerk development programme with the option of accreditation in the future.
