

CONFIDENCE. COVERAGE. SKILLS.

An introduction to Learning by Questions (LbQ)

What is LbQ?

LbQ is a proven teaching and learning tool filled with curriculum-aligned Question Sets in maths, English and science.

How does it work?

Pupils answer questions on a device, whether that be at home or in the classroom, all of which are automatically marked on the platform, with teachers able to monitor pupil performance and progress in real time on our results matrix.

How does this benefit me?

Despite how it might sound, LbQ is not just about pupils answering questions, it's really about teaching. By giving you the resources, the pupil feedback and the live insights, the teacher can make the most of every single moment of a lesson. LbQ was created because time in your classroom is precious.

Did you know?

A normal classroom now includes a remote classroom - LbQ fulfils all the DfE's expectations and the EEF's must-have's for blended learning.

Resources

All Question Sets are written by teachers, and contain clear explanations, scaffolding, practice, and instant feedback to support the delivery of quality lessons.

Summer Term and Transitions

After a turbulent 12 months, it's time to rethink the expectations placed on pupils for summer term and the transition to their next phase of learning.

Engagement

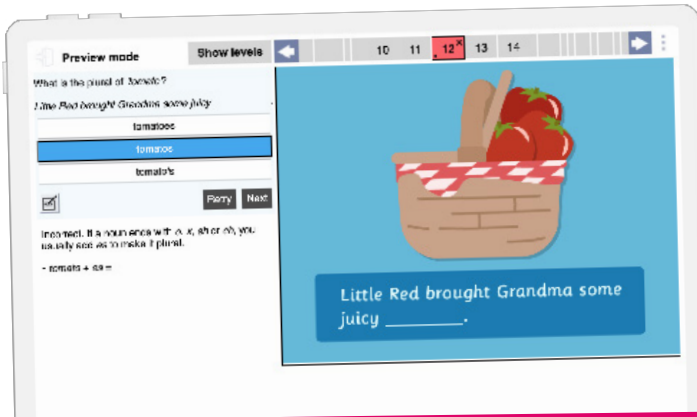

Pupils and parents love LbQ due to the support and challenge it brings. The unique, automatic pupil feedback offered by LbQ gives pupils the chance to thrive, whilst parents have peace of mind knowing that their child has all the support they need.

“LbQ provides the right level of content to support and stretch every pupil. Children absolutely love it, they’ve never been more engaged!”

Evidence

With LbQ, all performance data for a particular class is stored over time. This allows you to see how a pupil has done in all the LbQ Question Sets that you have set, providing tangible evidence of how pupils are progressing. This long term data can be used to aid planning, assessment and to show inspectors at the touch of a button.

Feedback

Research shows that feedback is at its most effective when given at the point of learning. LbQ makes that possible.

All LbQ resources contain constructive feedback that is built into every question on our platform, allowing pupils to retry a question and develop a broader understanding of concepts and topics.
