On speaking with YPs, it was clear to the assessor that they were enjoying their experience and were full of praise for both the staff team and the venue. YPs reported excellent facilities and that they really enjoyed the activities they were engaging in. They were also pleased to note that they have a really positive relationship with DP staff, built on trust.

This one-day training event focused on the NCS programme and the responsibilities of Delivery Staff. The Trainers shared the aims and objectives at the start of the day, and the subjects covered were designed to incorporate all aspects of the NCS programme, including shared experiences. The day enabled the Trainers to demonstrate an excellent understanding of the content being presented. The activities used throughout the day involved the Delivery Staff and helped them understand their role within the Wave.

This was probably one of the most interesting events of my life so far. Every day brought new challenges, and the whole experience was thoroughly exciting and interesting. I will miss spending time with my NCS group as their enthusiasm to every day's activities made my time there even more fantastic. I would also like to thank the staff for their care and support for all of us during the experience. I would definitely recommend it as a must for others, as its actually quite unbelievable how many friends you make and you really begin to appreciate the small amount of time you spend there no matter how grand the activities as you are surrounded by a friendly and sociable community to make the days spent worth everything. Absolutely brilliant, I enjoyed every second of it.

NCS Grad

My daughter enjoyed the independence and gained experience and confidence. She loved the challenge, came back with a real sense of achievement and she is so proud of their incredible community accomplishment.
