

# Making an Impact

## FREE EVENT

Join us to explore new ways  
of transforming teaching  
with technology

24th May 2022 | Virtual  
25th May 2022 | In Person

# Making an impact...

## What can I expect?

Join our team of experienced online safety, curriculum, and technical support advisers to hear about the latest in technology and how it can be used effectively in your school. During the day, we will look at how you can engage your learners with technology and hear about safeguarding, data, and equipment.

## Who can attend?

If you are a computing teacher using technology to enhance lessons, a lead teacher for computing, or someone interested in using technology in lessons, this free event is ideal for you to network with colleagues, enhance knowledge and help develop your computing curriculum.

# Virtual Event Agenda

24th May 2022 | 9:45am - 14:15pm

## 10:00 - 10.15 - Welcome

### 10.15 - 10.45 - Online safeguarding in schools – Threats and risks and the national picture

This session will look at data from over 11500 schools in England and Wales to find out what is happening in the ever-changing world of online safeguarding. We will highlight the strengths but also the weaknesses that are all too common and suggest how you might address these weaknesses if they exist in your school.

### 10.45 - 11.30 - Technology in the classroom to support learners with additional needs

This session will explore the tools available included with Microsoft, Google and Apple to support learners with additional needs.

### 11.30 - 12:00 - Important technology update

Find out about important devices and system updates and how this can affect your school.

## 12.00 - 12.40 - Lunch

### 12.45 - 13.05 - Cyber security in your school

The risk of cyber-attacks on schools is ever increasing. During this session we will explore what might be involved in improving the security of your school.

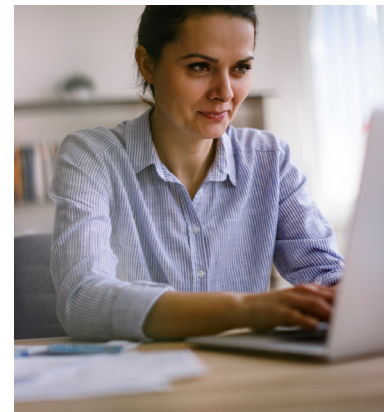

### 13.05 - 13.35 - What monitoring data tells us

We will explore the importance of data monitoring in schools and explore how you can use our data monitoring service to interpret online safeguarding data and identify changing student behaviours online.

### 13.35 - 13.55 - Evidencing learning in computing

The pandemic has highlighted the importance of pupils harnessing digital skills and that the computing curriculum is key to delivering these skills but, how are you evidencing pupil work? This session will share first hand experiences and tips from schools you can use to impact your own computing curriculum.

### 13.55 - 14.15 Q&A - Competition and close

## Where can I register?
